Our Commitment to Quality

California Air Resources Board

The California Air Resources Board regulates air quality by ensuring that materials and air emissions meet the most stringent requirements. Forevermark is constantly surpassing all requirements for high quality cabinetry. As such, Forevermark Cabinetry products meet the California Air Resources Board's current standards for certification. CARB labeling indicating compliance is on each box and product. For more information, please feel free to visit www.arb.ca.gov.

Kitchen Cabinet Manufacturers Association

Forevermark is proud to offer assembled cabinets that are KCMA certified. KCMA certified cabinets are recognized in the marketplace as a quality product able to perform after a rigorous battery of tests simulating years of household use. For more information visit www.kcma.org.

National Kitchen & Bath Association

Forevermark is a member at the National Kitchen & Bath Association. Being part of this association keeps us informed with the latest news and developments in the industry. For more information, please feel free to contact our offices or visit www.nkba.org.

GREENGUARD CERTIFIED

Forevermark Cabinetry is proud to further demonstrate our commitment to the well-being of our customers by offering select lines with UL Environment's Greenguard® certification. The GREENGUARD Certification Program (formerly known as GREENGUARD Indoor Air Quality Certification) gives assurance that products designed for use in indoor spaces meet strict chemical emissions limits, which contribute to the creation of healthier interiors.

WATERBORNE UV FINISHES

Forevermark Cabinetry features the use of waterborne UV finishes furnished by Sherwin-Williams on certain door styles.* The benefits of waterborne UV finishes include superior scratch resistance, low VOCs, finishes that are formaldehyde-hazard free, and reduction in environmental impact.

You can be sure that the solutions you're choosing satisfy the highest standards for performance, while meeting or exceeding regulatory requirements. Which means you'll never have to choose between the best coatings for the environment and the best coatings for delivering a quality look that lasts.

FOREST STEWARDSHIP COUNCIL® CERTIFIED

Forevermark Cabinetry is proud to offer select products with raw materials that are Forest Stewardship Council® (FSC) certified through its supplier. The FSC® is an independent, non-profit organization that protects forests for future generations, and is the only system supported by groups such as WWF, Sierra Club, Greenpeace, Natural Resources Defense Council, and National Wildlife Federation. The FSC® protects water quality, prohibits highly hazardous chemicals, restricts deforestation, protects customary rights of indigenous people and local communities, prevents loss of natural forest cover, protects high conservation value forests, and limits clearcuts to protect forest ecology.

By purchasing a FSC-certified product, customers can ensure that their product is coming from responsibly managed sources.

Cabinet Construction

Forevermark Cabinetry is constructed from several pieces of solid wood and wood veneers on plywood. Differences in grain pattern and color should be expected. Color differences in wood are the result of variations in minerals found in the soil native to the tree's origin. Absorption of these minerals will vary by tree or parts of said tree. In addition, color changes can be experienced due to different exposure to light. All species of wood will display characteristics such as knots, pinholes, sap runs, mineral streaks, and darkening with age. It is the natural beauty of wood to exhibit these characteristics and they will be present throughout your cabinetry. Details for individual cabinet construction can be found on our website www.MatrixCabinets.com in the "Our Cabinets" section.
